**Well, Chaska Bun

At Chaska bun, we serve freshly baked wheat buns that are a huge hit and make customers keep coming back just for a bite. And a sip of our special range of premium quality tea. Here, we serve Healthy **DESI** Burger without compromising the least on quality and taste. And everything is served fresh and warm because everyone deserves good food and a warm welcome.

HOW IT ALL BEGAN

Chaska bun came into existence when three food enthusiasts merged their passions together. Habeeb Imthiyas, a designer who is constantly experimenting with his taste buds, and his two friends started this journey after tasting a delicious bun from a local restaurant in Pune. The unique taste and flavour of the buns lingered and inspired them to recreate a similar experience.

This led them to bake buns, develop recipes and start a café of their own. After Six months of continuous trials and experiments, on 22nd of July 2017, Chaska Bun became a reality - spreading the aroma of freshly baked buns through the streets of Bangalore. Ever since, they have been spreading smiles and filling tummies with delicious food.
